PN360 OIL & GREASE STAIN REMOVER

Oil & grease stain remover (poultice like) for stone, concrete and paving stone.

PRODUCT CODE, SIZE & PACKAGING

Ready to use formula

Code: PN360-45 450gr - 12 per box

Code: PN360-04 4 liters - 4 per case

Code: PN360-20 20 liters – 1 pail

TECHNICAL DATA SHEET

DIRECTIONS

PREVENTION MEASURES

PERSONAL SAFETY

Wearing of gloves, safety glasses and appropriate clothing to prevent skin contact when using the product is always recommended.

Please follow safety guidelines outlined in the "CAUTION" section indicated on the bottle (see hereunder).

NEIGHBORING AREA PROTECTION

Always protect the neighboring working area against unexpected contact with the product to avoid irreversible damage or alterations that could only be restored by its replacement.

PREREQUISITE CONDITIONS

Surface temperature should be between 15 and 30°C (59 and 86°F).

Ideal temperature for best results.

Test first on a small and adequate surface, to assess results.

- First time user, without preliminary testing.

Never use the product for the first time on a large area without preliminary testing.

Usage of the product on an alkaline sensitive material could alter irreversibly the covering material that would only be restored by its replacement.

- Using the product on a new surface or on an unknown surface, without preliminary testing.

Even if you have used the product in the past, because covering manufacturers do modify occasionally the composition of their products, there could be, without your knowledge, presence of an incompatible substance that could be irreversibly damaged or altered or give unexpected end results that would only be restored by its replacement.

More so, even if the product is lightly alkaline, it could damage the finish or the protection of certain materials. Some acrylics (bathtubs, showers, sinks) and some stones like marbles are sensitive to alkaline cleaning products when used with the scrubbing action of nylon scuff pads.

RECOMMENDED SURFACES:

- Safe for
- Natural stones
- Terrazzo
- Concrete
- Paving stone
- Asphalt
- Residential, commercial and institutional
- Interior and exterior applications

CHARACTERISTICS:

- Alkaline formula pH: 10
- Phosphate and ammonia free
- Faint odor.
- No rinsing required
- Low odor
- Safe on metals

PERFORMANCE:

- Meets Cleaning Performance test ASTM D4488-95-A5

ENVIRONMENTAL DATA:

- VOC: 0
- Biodegradable. In conformity with OCDE 301 E rule

<p>Finally, since 2016 we note that some polished Quartz products, Quartzite surfaces and flamed granites are very sensitive to alkaline products. Application of a wax or an acrylic finish by the manufacturers seems to be at the origin of the problem.</p> <p>METHOD OF APPLICATION</p> <p>Pour a fair quantity of cleansing cream to cover entirely the stain and let dry. Average drying time: 8 hours. When dry, the product will change to a hard powder. Sweep the surface with a hard bristle brush. Repeat if necessary.</p>	<p><u>COVERAGE</u></p> <p>450gr covers approx 0.1m² (1ft²) 4 liters cover approx 2.5m² (25ft²)</p> <p>Varies with the surface condition and the nature of the stains.</p>
<p>HANDLING & STORAGE</p> <p>Avoid freezing. Store in original container, well closed, in a dry area at room temperature. Do not waist excess sealer in sewers. Send them to an appropriate recycling center. Shelf life: 12 months in a tight closed container at a temperature between 10 and 30°C (50 and 86°F).</p>	<p>CAUTION</p> <p>MAY IRRITATE EYES MAY IRRITATE SKIN Do not get in eyes. Do not get on skin or clothing. Do not breathe fumes. Keep out of reach of children.</p> <p>FIRST AID TREATMENT Contains surfactants and glycols. If swallowed, call a Poison Control Centre or doctor immediately. Do not induce vomiting. If in eyes, rinse with water for 20 minutes with eye lids open. If on skin, rinse well with water.</p>
